Combined management report

In line with the provisions of sect. 315 para 5 HGB (German Commercial Code, "Handelsgesetzbuch") together with sect. 298 para 2 HGB, the management report of Deutsche Bank AG has been combined with the management report of Deutsche Bank Group. The combined management report is published in the Annual Report 2020 of Deutsche Bank Group. It is filed with and subsequently published by the German Federal Gazette (Bundesanzeiger).

The Annual Report is also made available under <https://www.db.com/ir/en/annual-reports.htm>.

Balance sheet as of December 31, 2020

Assets in € m.			Dec 31, 2020	Jan 1, 2020 (pro-forma) ¹	Dec 31, 2019
Cash reserve					
a) Cash on hand			1,869	2,036	70
b) Balances with central banks			135,883	111,575	88,418
thereof: with Deutsche Bundesbank	77,207			44,899	23,790
			137,752	113,610	88,487
Debt instruments of public-sector entities and bills of exchange eligible for refinancing at central banks					
a) Treasury bills, discountable Treasury notes and similar debt instruments of public-sector entities			1,414	684	684
thereof: eligible for refinancing at Deutsche Bundesbank	250			400	400
b) Bills of exchange			0	3	3
			1,415	687	687

¹ Values in the "pro-forma" columns show consolidated values for Deutsche Bank AG and Deutsche Bank Privat- und Firmenkundenbank AG.

General information

Deutsche Bank AG's legal name is Deutsche Bank Aktiengesellschaft and it is incorporated in Frankfurt am Main. It is registered in the Commercial Register of the District Court Frankfurt am Main under registration number HRB 30000.

The annual financial statements of Deutsche Bank AG for the financial year 2020 have been prepared in accordance with the German Commercial Code ("HGB") as well as the Statutory Order on Banks' and Financial service institutions' Accounts ("RechKredV"). Company-law regulations have been complied with. For the sake of clarity, the figures are reported in million euros (€).

Basis of presentation

Merger of DB Privat- und Firmenkundenbank AG

DB Privat- und Firmenkundenbank AG was merged into Deutsche Bank AG with effect from 1 January, 2020. Using the accounting policy choice stipulated by § 24 Transformation Act (Umwandlungsgesetz, UmwG), the carrying values in the closing balance of the transferee as of December 31, 2019, were used as deemed acquisition cost in the balance sheet of the transferor Deutsche Bank AG as of January 1, 2020. The expenses related to the merger were recognized in the income statement.

The up-stream-merger resulted in a difference between the carrying value of the investment ceasing to exist and the net asset value taken over, which was recognized as extraordinary income in the income statement.

To increase transparency in presentation, prior year figures were adjusted using a pro-forma column as of January 1, 2020, and explanations of changes refer to these pro-forma amounts.

Accounting policies for:

Receivables

Receivables which are held with a trading intent are accounted for as described in the separate paragraph "Trading activities".

Receivables from banks and customers which do not qualify as trading assets are generally reported at their nominal amount or at acquisition cost less necessary impairments. If, in a subsequent period, the amount of the impairment loss decreases and the decrease in impairment can be objectively related to an event occurring after the impairment was recognized, the previously recognized impairment is reversed through the income statement.

Risk provisioning

Provisioning for loan losses comprises impairments and provisions for all identifiable credit and country risks, for inherent default risks and the provision for general banking risks. Provisions for credit risks are reflected in accordance with the prudence principle at the amount of expected losses.

The transfer risk for loans to borrowers in foreign states (country risk) is assessed using a rating system that takes into account the economic, political and regional situation. When recognizing provisions for cross-border exposures to certain foreign states the prudence principle is applied.

Provisions for inherent credit risk are reflected in the form of general value adjustments in accordance with commercial law principles. In addition, general banking risks are provisioned pursuant to Section 340f HGB. The offsetting option available under Section 340f (3) HGB has been utilized.

The calculation of expected loss is fully based on the parameters probability of default (PD), loss given default (LGD) and exposure at default (EAD). For the latter parameter, all risk relevant contracts are included. Credit risk for off-balance exposures such as guarantees and loan commitments are presented as provisions. The credit risk projection is supplemented by macro-economic factors (for example growth rates of GDP and unemployment rates in Europe and US) to better reflect the portfolio risk.

The bank recognizes a credit loss allowance at an amount equal to 12-month expected credit losses. This represents the portion of lifetime expected credit losses from default events that are expected within 12 months of the reporting date, assuming that credit risk has not increased to trigger an impairment. The Group recognizes a credit loss allowance at an amount equal to lifetime expected credit losses for those exposures with increased credit risk.

In 2020, the bank has introduced an approach to recognize an additional credit loss allowance for Financial Assets which are considered to have experienced a significant increase in credit risk since initial recognition. Using the IFRS 9 methodology, this requires the computation of expected credit losses based on lifetime PD, lifetime LGD and lifetime EAD that represents the probability of default occurring over the remaining lifetime of the Financial Asset.

For those Financial Assets that are credit-impaired, the bank recognizes a loss allowance at an amount equal to lifetime expected credit losses, reflecting a Probability of Default of 100 %, via the expected recoverable cash flows for the asset.

Securities

Bonds and other fixed income securities as well as equity shares and other variable-yield securities which are held for trading purposes are accounted for as described in the separate paragraph "Trading activities".

Certain holdings of bonds and other fixed-income securities for which the intent is to hold them for the foreseeable future are classified as non-current assets and accounted for using the moderate lower-of-cost-or-market rule. This means that the respective securities are carried at acquisition cost less other than temporary impairment.

If bonds and other fixed-income securities are neither held for the foreseeable future nor form part of the trading portfolio, they are classified as current assets and are accounted for using the strict lower-of-cost-or-market rule. This means that they are carried at the lower of acquisition cost or market respectively attributable value.

The same applies to equity shares and other variable-yield securities which, if they are not part of the trading portfolio, are generally accounted for as current assets.

Securities are written up pursuant to the requirement to reinstate original values if the reason for the write-up can be objectively related to an event occurring after the write-down was recognized.

Embedded derivatives

Some hybrid contracts contain both a derivative and a non-derivative component. In such cases, the derivative component is referred to as embedded derivative, with the non-derivative component representing the host contract. Where the economic characteristics and risks of embedded derivatives are not closely related to those of the host contract, and the hybrid contract itself is not carried as a trading activity at fair value through profit or loss, the embedded derivative is bifurcated following general principles of derivative accounting. The host contract is accounted for at amortized cost or settlement amount.

Credit derivatives

Credit derivatives held or incurred with a trading intent are accounted for as described in the separate paragraph "Trading activities".

Other credit derivatives held which qualify as collateral for incurred credit risk are not accounted for separately, but rather taken into account in the risk provisioning for the underlying transaction.

Trading activities

Financial instruments (including positive and negative market values of derivative financial instruments) as well as precious metals which are held or incurred with a trading intent are recognized at fair value less risk adjustment. In addition to the value-at-risk adjustment a de-facto limit on profit distribution for net trading P&L exists because each fiscal year a certain portion of net trading revenues has to be allocated to a trading-related special reserve which is part of the fund for general banking risk.

Fair value is defined as the amount at which a financial instrument could be exchanged in a current transaction between knowledgeable, willing and unrelated parties, other than in a forced sale or liquidation. Where available, fair value is based on observable market prices and parameters or derived from such prices or parameters. The availability of observable data varies by product and market and may change over time. Where observable prices or inputs are not available, valuation techniques appropriate to the particular instrument are applied.

If fair value is estimated by using a valuation technique or derived from observable prices or parameters, significant judgment may be required. Such estimates are inherently uncertain and susceptible to change. Therefore, actual results and the financial position may differ from these estimates.

The fair valuation of financial instruments includes valuation adjustments for close-out costs, liquidity risk and counterparty risk as well as funding considerations for uncollateralized trading derivatives.

In order to reflect any remaining realization risk for unrealized gains, the result of the fair value measurement is reduced by a risk adjustment, which is deducted from trading assets. The risk adjustment is based on value-at-risk which is calculated using a holding period of ten days and a confidence level of 99 %.

The trading-related special reserve is provided for by taking at least 10 % of the net trading revenues (after risk adjustment) and must not exceed the total amount of net trading revenues of the respective fiscal year. It has to be provided for until the trading-related special reserve corresponds to 50 % of the five-year average of net trading revenues after risk adjustment.

The reserve may only be consumed to either release an amount exceeding the 50 % limit or to cover net trading losses.

Financial instruments and precious metals held for trading are separately presented as "Trading assets" or "Trading liabilities" on the face of the balance sheet. Forward contracts to buy or sell commodities do basically not qualify as financial instruments and can therefore not be assigned to trading assets.

Any changes in fair value after risk adjustment are recognized as "Net trading result".

Under certain conditions, trading derivatives are offset against cash collateral posted by counterparties. On an individual counterparty basis, such derivatives qualify for offsetting which have been contracted under a master agreement with a credit support annex ("CSA") and daily exchange of cash collateral. For each counterparty, the amount offset includes the positive and negative market values of derivatives as well as the collateral paid or received.

In the financial year, the discounting methodology of Euro denominated interest rate derivatives centrally cleared through the London Clearing House (LCH), EUREX and the Chicago Mercantile Exchange (CME) changed from Euro Overnight Index Average (EONIA) to the Euro Short Term Rate (€STR). This changed the fair value of the derivatives with a compensating cash payment or receipt so there was no value transfer. A similar change occurred for USD interest rate discounted centrally cleared interest rate derivatives to change discounting from the Federal Funds Rate to the Secured Overnight Financing Rate (SOFR). Where the change in reference interest rates has resulted in valuation adjustments up to the balance sheet date, these have been recognized in the income statement. An almost completely neutral effect on the result of the conversion is achieved through the posting of the compensating cash payment in the income statement.

Valuation units (hedge accounting)

In instances in which for accounting purposes assets, liabilities, pending transactions or highly probable forecasted transactions (hedged items) and financial instruments (hedging instruments) are designated in a valuation unit to achieve an offset for changes in fair value or cash flows attributable to the hedged risk the general measurement rules are not applicable. The bank generally utilizes the freeze method, which means that offsetting value changes related to the hedged risk are not recorded. Consequently, negative fair value changes related to the same type of risk are not recognized during the period of the hedge unless a net loss, i.e., negative ineffectiveness, arises which is recognized as a provision for imminent losses.

For the purpose of hedge accounting forward contracts to buy or sell commodities are treated as financial instruments.

Reclassifications

Receivables and securities have to be classified as trading activities, liquidity reserve or non-current investments at inception.

A reclassification into trading after initial recognition is not permitted and a reclassification from trading activities is only allowed if the intent changes due to exceptional market conditions, especially conditions that adversely affect the ability to trade. Furthermore, financial instruments held with a trading intent may be designated subsequently as hedging instruments into a valuation unit.

A reclassification between the categories liquidity reserve and non-current investments occurs when there is a clear change in management intent after initial recognition which is documented.

The reclassifications are made when the intent changes and at the fair value as of the reclassification date.

Participating interests and investments in affiliated companies

Participating interests are recognized either at cost or utilizing the option available under Section 253 HGB at their lower fair value.

Investments in affiliated companies are accounted for at moderate lower-of-cost-or-market. This means that write-downs are only recognized if the impairment is considered other than temporary.

To determine the fair value of affiliated companies, a discounted cash-flow model is applied. The model discounts the expected free cash-flows for a five year horizon using a risk-adjusted interest rate. For the time after the five year period, the sustainable plan development is projected to determine the terminal value. The valuation includes measurable synergies for certain affiliated companies.

Participating interests and investments in affiliated companies are written up pursuant to the requirement to reinstate original values if the reason for the write-up can be objectively related to an event occurring after the write-down was recognized. The offsetting option available under Section 340c (2) HGB has been utilized.

Tangible and intangible assets

Tangible and intangible assets are reported at their acquisition or manufacturing cost less any depreciation or amortization. Self-developed brands, mastheads, publishing titles, customer lists and similar intangible assets are not recognized.

Write-downs are made for any impairment that is likely to be permanent.

Tangible and intangible assets have to be written up if the increase in value can be objectively related to an event occurring after the write-down was recognized.

Low-value assets are written off in the year in which they are acquired.

Derecognition of assets

An asset is generally derecognized when legal ownership is transferred.

However, if the seller irrespective of the asset's legal transfer retains the majority of risks and rewards of ownership, the asset is not derecognized.

Securities lending/borrowing transactions in accordance with Section 246 (1) sentence 2 HGB remain recognized in the transferor's balance sheet. Therefore the securities lent are not derecognized by the transferor because he remains exposed to the majority of risks and rewards of ownership.

Liabilities

Liabilities are recognized at their settlement or nominal amounts. Zerobonds issued at a discount are reported at their present value, using the original effective interest rate.

Instruments qualifying as additional tier 1 capital

The instruments issued qualify as liabilities and are recognized at their settlement or nominal amount. Interest is accrued based on the expected payments to the investors holding the instruments.

Provisions

Provisions for pensions and similar obligations are recognized in accordance with actuarial principles. Pension provisions are calculated using the projected unit credit method and using the average market rate for an assumed remaining term of 15 years as published by the German Federal Bank unless the pension plan's remaining term is shorter.

The bank is employing specific mortality assumptions to determine the defined benefit obligation for its defined benefit pension plans in Germany. The mortality expectations from the "Richttafeln Heubeck 2018G" are adjusted to the DB specific mortality experience of employees and pensioners.

Assets which are exclusively used to settle pensions and similar obligations and which are controlled neither by Deutsche Bank AG nor any creditor (plan assets) are fair valued and offset with the respective provisions. Overfunded obligations are recognized on the balance sheet as a net asset after offsetting of provisions. For underfunded pension obligations and obligations from the bank's internally financed plans, the relevant provisions are made.

If the settlement amount of pensions and similar obligations is solely based on the fair value of securities held as non-current financial assets, the provision is measured at the fair value of these securities if the fair value exceeds the guaranteed minimum.

Other provisions for uncertain liabilities or for onerous contracts (excluding trading activities) are recognized at their expected settlement amount applying the principles of prudent commercial judgment. Provisions for uncertain liabilities are discounted if the related cash outflows are not expected to arise within twelve months after the balance sheet date.

The assessment whether to recognize a provision for imminent losses from pending transactions comprises an evaluation whether a net loss is probable to arise for all interest-earning and interest-bearing assets and liabilities, respectively, which are not held with a trading intent, i.e., all positions within the banking book existing as of the reporting date.

The assessment whether a net loss is probable in respect of interest-earning and interest-bearing positions within the banking book requires comparing expected future net interest income and expected future directly attributable fees with expected future funding and credit risk expenses as well as future expected administrative expenses associated with the interest-earning and interest-bearing positions as of the reporting date.

The assessment of a potential provision is aligned with the internal management of the interest-related position in the banking book. For interest-related positions in the banking book a present value based approach is used and supplemented by an analysis of the historic cost coverage of risk and administrative costs by net interest surpluses for the positions hedged against interest rate risk.

Deferred taxes

Deferred tax assets and deferred tax liabilities on temporary differences between the accounting and tax base for assets, liabilities and accruals are offset against each other and presented net on the balance sheet as either deferred tax assets or deferred tax liabilities. In determining deferred tax assets unused tax losses are taken into account, but only to the extent that they can be utilized within the following five years.

Treasury shares

If Deutsche Bank AG acquires its own shares (treasury shares) they are openly deducted at cost from capital and distributable reserves in a separate column on the face of the balance sheet with no gain or loss being recognized in the income statement.

If such treasury shares are subsequently sold the previously mentioned deduction is reversed and any amount exceeding the original acquisitions costs is to be recognized within capital reserves whereas a loss on the subsequent sale is to be recognized in revenue reserves.

Currency translation

Currency translation is consistent with the principles set forth in Sections 256a and 340h HGB.

Assets denominated in foreign currency and treated as fixed assets, but not separately covered in the same currency, are shown at historical cost unless the change in the foreign currency rate is other than temporary so that the assets have to be written down. Other foreign currency denominated assets and liabilities and outstanding cash deals are translated at the mid spot rate at the balance sheet date, and forward exchange deals at the forward rate at the balance sheet date.

The definition of those positions in foreign currency for which the bank applies the special coverage method according to Section 340h HGB reflects internal risk management procedures.

The accounting for gains and losses from currency translation depends on to which foreign currency positions they relate. Gains and losses from currency translation of trading assets and trading liabilities as well as gains and losses from the translation of positions which are specifically covered are recognized in the income statement. The same applies to foreign currency positions which are not specifically covered but have a remaining term of one year or less. In contrast, for foreign currency positions which are not specifically covered and have a remaining term of more than year in accordance with the imparity principle only the losses from currency translation are recognized. The result of currency translation is included in the net trading result and in other operating income and expenses.

The items on the balance sheets and the income statements of foreign branches are translated into euros at mid-rates at the respective balance sheet dates (closing-rate method). Differences resulting from the translation of balance sheet items – with the exception of exchange rate losses on the translation of the capital allocated to the branches outside Germany (including gains and losses carried forward) – are reported as sundry assets or sundry liabilities not affecting net income.

Notes to the balance sheet

Maturity structure of receivables

in € m.	Dec 31, 2020	Jan 1, 2020 (pro-forma)	Dec 31, 2019
Other Receivables from banks without receivables repayable on demand	54,351	60,748	63,865
with a residual period of			
up to three months	15,091	20,062	16,131
more than three months and up to one year	16,966	19,051	19,394
more than one year and up to five years	14,095	14,334	14,247
more than five years	8,199	7,301	14,093
Receivables from customers	392,962	399,311	242,077
with a residual period of			
up to three months	137,290	124,152	114,291
more than three months and up to one year	45,650	50,538	40,315
more than one year and up to five years	98,109	109,275	59,274
more than five years	107,435	108,704	21,618
with an indefinite period	4,476	6,643	6,580

Securities

The table below provides a breakdown of the marketable securities contained in the listed balance sheet positions.

in € m.	listed			unlisted		
	Dec 31, 2020	Jan 1, 2020 (pro-forma)	Dec 31, 2019	Dec 31, 2020	Jan 1, 2020 (pro-forma)	Dec 31, 2019
Bonds and other fixed-income securities	57,556	78,414	48,984	31,677	9,100	6,594
Equity shares and other variable-yield securities	180	168	168	2	3	3
Participating interests	0	0	0	38	42	41
Investments in affiliated companies	0	0	0	0	928	0

Of the bonds and other fixed-income securities of € 89.2 billion, € 8.9 billion mature in 2021.

Bonds and other fixed-income securities held as fixed assets are reported at amortized cost as Deutsche Bank intends to hold these securities for the foreseeable future. The total carrying amount as of the reporting date amounts to € 33,205 and relates to the strategic liquidity reserve, which is managed by Group Treasury. It contains high quality government, supranational and agency bonds. As of December 31, 2020 this portfolio did not contain assets for which the current market value is lower than the carrying value.

Investments in investment funds

The following table shows a breakdown of holdings in German and foreign investment funds by investment purpose where the fund units held exceeded 10 %.

in € m.	Dec 31, 2020			
	Carrying value	Fair value	Difference between fair value and carrying value	Distribution in 2020
Equity funds	0	0	0	0
Bond funds	422	422	0	0
Mixed funds	318	318	0	0
Total	740	740	0	0

The investments in the funds were assigned to trading assets. Their carrying values corresponded to their fair values. The majority of the funds were exchange traded funds established by Deutsche Bank.

The conditions to postpone the redemption of fund units may vary from fund to fund. They may be based on a minimum asset value or make it discretionary to the fund directors. Restrictions for daily redemption of the fund units relate to cases where too many investors try to redeem at a specific point in time. In these cases the funds might postpone the redemption until such time that they can fulfill the redemption request.

Transactions subject to sale and repurchase agreements

The book value of assets reported on the balance sheet and sold subject to a repurchase agreement in the amount of € 13.1 billion related exclusively to securities sold under repo agreements.

Trading assets and liabilities

Financial instruments held with a trading intent

The following table provides a breakdown of trading assets and trading liabilities.

Dec 31, 2020 in € m.	Trading assets	in € m.	Trading liabilities
Derivative financial instruments	82,846	Derivative financial instruments	89,505
Receivables	78,480	Liabilities	114,482
Bonds and other fixed-income securities	60,301		
Equity shares and other variable-yield securities	18,158		
Sundry assets	1,832		
Risk adjustment	(226)		
Total	241,390	Total	203,986

The basic assumptions to determine the fair value using accepted valuation methods are presented in detail in the section "Basis of Presentation".

Derivatives held for trading purposes that were traded under master netting agreements together with a credit support annex allowing for daily exchange of collateral were netted for each counterparty in the balance sheet. The netting for each counterparty encompasses both the carrying amount of the derivatives and the collateral provided. This involved offsetting positive fair values of € 242.9 billion (2019: € 257.5 billion) with negative fair values of € 259.7 billion (2019: € 243.4 billion) on derivatives held for trading with the associated receivables (€ 25.7 billion, 2019: € 24.8 billion) and liabilities (€ 42.5 billion, 2019: € 38.9 billion) from collateral provided. Please refer to the basis of presentation regarding the offsetting.

The subsequent table breaks down the derivatives valued at fair value which correspond to trading derivatives, by type and volume.

in € m.	Dec 31, 2020	
	Notional amount	
OTC products	31,045,720	
interest rate-linked transactions	24,287,488	
exchange rate-linked transactions	5,491,321	
credit derivatives	823,595	
equity- and index-linked transactions	66,788	
other transactions	376,527	
Exchange-traded products	1,039,606	
interest rate-linked transactions	810,098	
equity- and index-linked transactions	163,426	
exchange rate-linked transactions	43,726	
other transactions	22,355	
Total	32,085,326	

The amount, timing and the reliability of future cash flows are impacted by the interest rate environment, by the development in the equity and debt markets as well as by credit spreads and defaults.

Method and assumptions and risk adjustment amount

The calculation of the risk adjustment is based on the model to calculate the regulatory value-at-risk which incorporates financial instruments held or incurred for trading purposes. The valuation of trading assets might require various valuation adjustments e.g. for liquidity risks which are explained in more detail under "Basis of Presentation" in the section "Trading activities".

The calculation of the value-at-risk adjustment ("VaR-adjustment") is based on a holding period of ten days and a confidence level of 99 %. The observation period is 261 trading days.

In addition to the regulatory VaR-adjustment the risk adjustment was supplemented by additional risk figures related to Deutsche Bank's own credit risk which is not covered by the VaR calculation.

The absolute amount of the risk adjustment is € 226 million.

Change of criteria for the classification of financial instruments as trading

During the year 2020 the criteria related to the assignment of financial instruments to trading assets and liabilities remained unchanged.

Subordinated assets

The table below presents an overview of the subordinated assets contained in the respective balance sheet positions.

in € m.	Dec 31, 2020	Jan 1, 2020 (pro-forma)	Dec 31, 2019
Receivables from banks	545	635	635
Receivables from customers	0	0	0
Bonds and other fixed-income securities	1,243	1,221	1,221
Trading assets	4,066	2,035	2,035

Derivative financial instruments

Forward transactions

Forward transactions outstanding at the balance sheet date consisted mainly of the following types of transactions:

- interest rate-linked transactions: forward deals linked to debt instruments, forward rate agreements, interest rate swaps, interest futures, option rights in certificate form, option deals and option contracts linked to interest rates and indices;
- exchange rate-linked transactions: foreign exchange and precious metal forwards, cross-currency swaps, option rights in certificate form, option deals and option contracts linked to foreign exchange and precious metals, foreign exchange and precious metal futures;
- share-/index-related transactions: equity forwards and futures, index futures, option rights in certificate form, option deals and option contracts linked to equities and indices;
- credit derivatives: credit default swaps (CDS), total return swaps (TRS), credit linked notes (CLN).

The above types of transactions are concluded almost exclusively to hedge interest rate, exchange rate and market price fluctuations in trading activities.

Derivatives not accounted for at fair value

The subsequent table presents derivative financial instruments recorded as banking book derivatives that are generally not accounted for at fair value.

in € m.	Notional amount	Carrying value		Fair value	
		positive	negative	positive	negative
		Dec 31, 2020			
OTC products					
interest rate-related transactions	982,876	2,667	375	7,254	5,774
exchange rate-related transactions	78,696	2,393	136	1,573	1,545
credit derivatives	3,537	2	24	12	24
other transactions	44	0	0	0	13
Total	1,065,154	5,062	534	8,839	7,356

The carrying values of derivatives generally not recorded at fair value are reported in “Sundry Assets” and “Sundry Liabilities”.

Valuation units (hedge accounting)

Deutsche Bank AG enters into valuation units via fair value hedges, to protect itself essentially through interest rate swaps and options against fair value changes of fixed rate securities resulting from changes in market rates.

In case credit derivatives in the banking book do not qualify for loan collateral treatment, hedge accounting is applied in line with pronouncement IDW RS BFA 1.

Additional risks resulting from bifurcated derivatives embedded in hybrid financial instruments are hedged as well via micro hedge relationships.

In addition to the cases described above Deutsche Bank hedges commodity risks via micro- and portfolio-hedge relationships.

The subsequent table provides an overview of the hedged items in valuation units including the amount of hedged risks. For hedged assets and hedged liabilities the carrying value is presented as well.

in € m.	Dec 31, 2020	
	Carrying value	Amount of hedged risk
Secured assets, total	36,866	617
Secured liabilities, total	81,369	(3,297)
	Notional amount	Amount of hedged risk
Pending transactions	24,440	157

The amount of hedged risk, if negative, represents the cumulative decrease in fair value for assets respectively the cumulative increase of fair value for liabilities since inception of the hedge relationship that were not recognized in profit and loss net, after considering hedges. Positive amounts of hedged risk correspond to the cumulative increase in fair value of assets respectively the cumulative decrease in fair value of liabilities that were not recognized in profit and loss net, after considering hedges.

Using foreign exchange forwards and swaps, Deutsche Bank AG contracts fair value hedges of foreign-exchange risks of its branches dotational capital and profit/loss carried forward representing the net asset value exposed to foreign exchange risk. The carrying amount of the net hedged position amounts to € 14.1 billion. The amount of hedged risk is positive € 522 million. The final offset of the mirroring spot rate changes takes place at the point in time when the dotational capital is redeemed.

In instances where the contractual terms of hedged item and hedging instrument are exactly offsetting, both prospective assessment of effectiveness and retrospective measurement of ineffectiveness of a valuation unit are based on the matching of critical terms. In addition the bank may utilize statistical methods and regression analysis for the assessment of prospective effectiveness. Deutsche Bank AG compares the amounts of the changes of fair values of hedged items and hedging instruments (dollar-offset method). The valuation units are generally established over the remaining maturity of the hedged items.

Information on affiliated, associated and related companies

Sundry assets	0	0	0				
Total	2,409	1,237	108	Total	2,409	1,237	108

Receivables from banks are mainly related to deposits from customers placed on their behalf with third party banks. Receivables from customers are mainly loans which were funded by development banks or public bodies for specific purposes. Since 2020, this includes loans to support clients during the COVID-19 pandemic.

Fixed assets

The following schedule shows the changes in fixed assets.

in € m.	Acquisition/manufacturing costs					Depreciation/amortization, write-downs and value adjustments			Book value	
	Balance at Jan 1, 2020	additions from merger	Balance at Jan 1, 2020 after merger	Additions	Disposals	Cumulative	therein current year	therein disposals	Balance at Dec 31, 2020	Balance at Dec 31, 2019

thereof: included in valuation units according to Section 254 HGB					0				0	0
Equity shares and other variable-yield securities					(1)				0	1
thereof: included in valuation units according to Section 254 HGB					0				0	0

The option to combine financial assets pursuant to Section 34 (3) RechKredV has been utilized. Exchange rate changes at foreign branches resulting from currency translation at closing rates have been recognized in acquisition/manufacturing costs (balance at January 1, 2020) and in cumulative depreciation/amortization, write-downs and value adjustments.

¹ Additions to self-developed intangible assets relate to self-developed software.

² Land and buildings with a total book value of € 113 million were used as part of our own activities.

³ Investments in affiliated companies decreased by € 6.4 billion to € 27.9 billion. The decrease was attributable to the merger of DB Privat- und Firmenkundenbank AG with Deutsche Bank AG with retrospective effect as of January 1st, 2020 of € 1.6 bn, reductions of € 3.7 bn, net write-downs of € 0.9 billion and a negative impact of foreign currency translation of € 0.5 billion. It was partially offset by net capital increases of € 0.3 bn.

⁴ The net change of bonds by € 18.7 billion includes additions from the merger with DB PFK AG of € 26.2 billion.

Intangible assets

The goodwill reported under intangible assets is amortized over its estimated useful life of between five and 15 years. Its determination is based on economic and organizational factors such as future growth and profit prospects, mode and duration of expected synergies, leveraging customer base and assembled workforce of the acquired business. Software classified as an intangible asset is amortized over its useful life, which extends over a period of up to 10 years.

Sundry assets

Sundry assets of € 10.3 billion mainly consist of capitalization of FX-amounts according to § 340h HGB of € 2.4 billion, balloon-payments from swaps of € 1.9 billion, paid cash collateral of € 1.6 billion as well as tax claims of € 1.1 billion.

Prepaid expenses

Prepaid expenses include discounts between the issuance and redemption amount for liabilities of € 98 million.

Deferred taxes

Deferred taxes are determined for temporary differences between carrying amounts of assets, liabilities and accruals according to HGB accounting and their tax bases when it is anticipated that such differences will reverse in subsequent reporting periods. In this context, temporary differences of consolidated tax group subsidiaries/partnerships where Deutsche Bank AG is a shareholder/partner are included in the determination of Deutsche Bank AG's deferred taxes as well. In addition unused tax losses are taken into account when determining deferred tax assets to the extent that they will be utilized within the following five years. The measurement of deferred taxes is based on the combined income tax rate of the tax group of Deutsche Bank AG which is currently 31.3 %. The combined income tax rate includes corporate tax, trade tax and solidarity surcharge.

By contrast, deferred taxes arising from temporary differences in German investments in the form of a partnership are measured based on a combined income tax rate which includes only the corporate income tax and solidarity surcharge; this currently amounts to 15.83 %.

Deferred taxes in foreign branches are measured with the applicable statutory tax rates which are mainly within a range of 17 % and 33 %.

In the reporting period an overall deferred tax asset of €2.6 billion was presented on the balance sheet. Significant contributors were – Deutsche Bank AG – “domestic bank”, including deferred taxes of consolidated tax group subsidiaries and Deutsche Bank AG New York Branch. These are mainly based on unused tax losses and temporary differences, the latter mainly relating to staff related obligations and fair value measurements of loan portfolios and trading books.

Maturity structure of liabilities

in € m.	Dec 31, 2020	Jan 1, 2020 (pro-forma)	Dec 31, 2019
Liabilities to banks with agreed period or notice period	83,176	60,941	87,154

more than five years	0	1,822	0

¹ Prior year number restated by € (8) million.

Of the issued bonds and notes of €83.5 billion, €21.8 billion mature in 2021.

Liabilities for which assets were pledged as collateral

For the following liabilities assets were pledged as collateral in the amount stated in the table.

in € m.	Dec 31, 2020	Jan 1, 2020 (pro-forma)	Dec 31, 2019
Liabilities to banks	21,984	28,963 ¹	7,167
Liabilities to customers	1,225	96	96
Trading liabilities	2,365	421	421
Other liabilities	1,994	0	0

¹ Pro-forma number adjusted by € 17 billion in comparison to PFK's 2019 Financial Statements.

Sundry liabilities

Sundry liabilities of €30.7 billion mainly contain the liabilities due to failed derecognition amounting to €27.3 billion, FX revaluation effects for dotational capital and P&L carried forward of € 1.1 billion, operating expenditure to be paid amounting to € 1.0 billion, liabilities from AT1 equity instruments amounting to € 0.2 billion as well as other sundry liabilities amounting to € 1.1 billion.

Pensions and similar obligations

Deutsche Bank AG sponsors post-employment benefit plans for its employees (pension plans) which contain defined contribution as well as defined benefit plans.

The majority of the beneficiaries of these pension plans are located in Germany. The value of a participant's accrued benefit is based primarily on each employee's remuneration and length of service.

December 31 is the measurement date for all defined benefit plans. All plans are valued using the projected unit-credit method. The valuation requires the application of certain actuarial assumptions such as demographic developments, increase in remuneration for active staff and in pensions as well as inflation rates. The discount rate is determined pursuant to the rules of Section 253 (2) HGB.

Assumptions used for pension plans	Dec 31, 2020	Jan 1, 2020 (pro-forma)	Dec 31, 2019
Discount rate	2.25 %	2.59 %	2.59 %
Inflation rate	1.23 %	1.28 %	1.28 %
Rate of nominal increase in future compensation levels	1.73 %	1.78 %	1.78 %
Rate of nominal increase for pensions in payment	1.13 %	1.18 %	1.18 %
Mortality/disability tables	modified Richttafeln Heubeck 2018 G	modified Richttafeln Heubeck 2018 G	modified Richttafeln Heubeck 2018 G

The obligations from these defined benefit pension benefits are, for the most part, externally funded. Overfunded obligations are recognized on the balance sheet as a net asset after netting of provisions. For underfunded pension obligations and obligations from the bank's internally financed plans, the relevant provisions are recognized.

For defined contribution plans in Germany, where Deutsche Bank AG and other financial institutions are members of BVV, the subsidiary liability of employers covers the benefit payments and their legally required increases.

Furthermore, provisions are recognized for other similar long-term obligations, primarily in Germany, for example, for anniversary years of service or early retirement schemes. The bank funds these plans on a cash basis as the benefits are due.

in € m.	Pension plans		
	Dec 31, 2020	Jan 1, 2020 (pro-forma)	Dec 31, 2019
Pension obligation (recognized in the Financials)	8,869	8,484	5,311
Notional pension obligation based on 7-year-average discount rate	9,667	9,311	5,805
Income recognized due to discount rate difference	799	827	494
Fair value of plan assets	10,324	9,643	5,913
thereof:			
cost of plan assets	8,893	8,883	5,601
total of unrealized gains within plan assets	1,431	760	312
Net overfunded amount at year end	1,455	1,159	601
Net pension asset	1,455	1,159	601
thereof:			
recognized as "Overfunded plan assets related to pension plans"	1,503	1,212	654
recognized as "Provisions for pensions and similar obligations"	48	52	52

As in prior year, the valuation principles according to §253 (6) HGB result in a valuation difference between the defined benefit obligation recognized in the financials using the 10-year-average discount rate and the 7-year-average discount rate. This difference of € 799 million is subject to dividend blocking provisions.

in € m.	Pension plans		
	2020	2019 (pro-forma)	2019
Return from plan assets	696	181	33
Interest costs for the unwind of discount of pension obligations	613	691	(400)
Net interest income (expense)	83	(510)	(367)
thereof: recognized as "Other operating income"	84	20	0
thereof: recognized as "Other operating expenses"	1	530	367

Other provisions

in € m.	Dec 31, 2020
Provisions for loan losses	519
Provisions for imminent losses	258
Remaining other provisions	4,399
Total other provisions	5,175

The remaining Other Provisions are set for the following (main) types of risk:

Staff related provisions have been set up to reflect additional compensation and benefits to employees. They relate to variable payments and deferred compensation, share-based compensation, obligations for early retirement and others. The provided amount totals € 2.5 billion per year end 2020.

Restructuring provisions arise out of restructuring activities. The Group aims to enhance its long-term competitiveness through major reductions in costs, duplication and complexity in the years ahead. The provision for these activities is € 531 million per year end 2020.

Regulatory Enforcement provisions arise out of current or potential claims or proceedings alleging non-compliance with legal or regulatory responsibilities, which have resulted or may result in an assessment of fines or penalties by governmental regulatory agencies, self-regulatory organizations or other enforcement authorities. The provision for this risk is € 463 million per year end 2020.

Civil Litigation provisions arise out of current or potential claims or proceedings alleging non-compliance with contractual or other legal or regulatory responsibilities, which have resulted or may result in demands from customers, counterparties or other parties in civil litigations. The provision for this risk is € 286 million per year end 2020.

Operational provisions arise out of operational risk and exclude civil litigation and regulatory enforcement provisions, which are presented as separate classes of provisions. The provision for this risk is € 74 million per year end 2020. Operational risks include losses resulting from inadequate or failed internal processes, people and systems, or from external events.

Sundry provisions are set to € 538 million per year end 2020.

Subordinated liabilities

Contractually subordinated liabilities are issued in the form of fixed rate and floating rate securities, registered and bearer bonds and borrower's note loans and have original maturities mostly within ten and 20 years.

Deutsche Bank AG is not obliged to redeem subordinated liabilities in advance of the specified maturity date, however in some cases early redemption at the issuer's option is possible. In the event of liquidation or insolvency, the receivables and interest claims arising from these liabilities are subordinate to the non-subordinated receivables of all creditors of Deutsche Bank AG. The conversion of these funds into equity or another form of debt is not anticipated under the terms of the notes. These conditions also apply to subordinated liabilities not specified individually.

Material subordinated liabilities above € 1.0 billion

Currency	Amount in million	Type	Year of issuance	Coupon	Maturity/Next call date ¹
U.S.\$	1,500	Registered bond	2013	4.296 %	05/24/2023
€	1,250	Bearer bond	2015	2.750 %	02/17/2025
U.S.\$	1,500	Bearer bond	2015	4.500 %	04/01/2025
€	1,250	Bearer bond	2020	5.625 %	02/19/2026

¹ Maturity date of bonds. Bonds have some extraordinary call features, which are subject to approval by regulators or changes in tax laws.

Expenses for all contractually subordinated liabilities of €9.2 billion totaled €201 million, including results from hedging derivatives. Accrued but not yet matured interest of €128 million included in this figure is reported in sundry liabilities.

In addition, certain liabilities are subordinated by law according to section 46f para 6 German Banking Act, if their original maturity is above one year and the redemption amount or interest amount is not dependent on events uncertain at the time of issuance. These non-preferred liabilities amount to €60.4 billion as of December 2020.

Participation rights capital

Currency	Amount in million	Type	Year of issuance	Coupon	First call date

Instruments for additional Tier 1 regulatory capital

As of December 31, 2020 Additional Tier 1 Notes (the "AT1 Notes" or "Notes") amounted to €5.7 billion compared to €5.0 billion last year. Interest expense on the notes for 2020 totaled €368 million and included €242 million of accrued interest as of year-end 2020, which was recorded within other liabilities.

The AT1 Notes constitute unsecured and subordinated notes of Deutsche Bank. The notes bear interest on their nominal amount from the issue date to the first call date at a fixed annual rate. Thereafter the interest rate will be reset at five year intervals. The Notes contain features that may require Deutsche Bank and will permit Deutsche Bank in its sole and absolute discretion at all times and for any reason to cancel any payment of interest. If cancelled, interest payments are non-cumulative and will not increase to compensate for any shortfall in interest payments in any previous year. The Notes do not have a maturity date. They are redeemable by Deutsche Bank at its discretion on the respective first call date and at five year intervals thereafter or in other limited circumstances. In each case, the Notes are subject to limitations and conditions as described in the terms and conditions for example, the Notes can be redeemed by Deutsche Bank at its discretion, in whole but not in part, for certain regulatory or taxation reasons. Any redemption is subject to the prior consent of the competent supervisory authority. The redemption amount and the nominal amount of the Notes may be written down upon the occurrence of a trigger event. A trigger event occurs if the Common Equity Tier 1 capital ratio of Deutsche Bank Group, determined on a consolidated basis falls below 5.125 %. The Notes may also be written up, following a trigger event, subject to meeting certain conditions.

AT1 Notes outstanding as of December 31, 2020

Foreign currencies

The total amount of assets denominated in foreign currencies was equivalent to €455.1 billion at the balance sheet date; the total value of liabilities was equivalent to €307.6 billion.

Capital and reserves

Own shares

In the course of 2020, the bank or its affiliated companies bought 9,558,706 Deutsche Bank shares at prevailing market prices and sold 9,565,152 Deutsche Bank shares at prevailing market prices for trading purposes. The purchase of its own shares was based on the authorization given by the General Meeting on May 18, 2017 pursuant to Section 71 (1) No. 7 AktG, whose limitations were adhered to for each share purchase and sale transaction. The average purchase price was €7.86 and the average selling price was €7.86 per share. The result was recognized in the capital reserve.

The bank's own shares bought and sold for trading purposes during 2020 represented about 0.5 % of its share capital. The largest holding on any individual day was round 0.00 % and the average daily holding round 0.00 % of its share capital.

In addition, the bank was authorized to buy own shares by the General Meetings of May 20, 2020 and of May 23, 2019 pursuant to Section 71 (1) No. 8 AktG. The respective limitations were adhered to for each purchase and sale transaction. The authorization for the bank to purchase its own shares, which was given by the General Meeting on May 23, 2018 and valid until April 30, 2024, was cancelled once the authorization of May 20, 2020 came into effect. The new authorization was approved until April 30, 2025.

Additionally the Annual General Meeting of May 20, 2020 authorized the Management Board pursuant to Section 71 (1) No. 8 AktG to execute the purchase of shares under the resolved authorization also with the use of put and call options or forward purchase contracts. The limitations concerning the use of such derivatives were adhered to for each purchase and sale transaction.

At the end of 2020, Deutsche Bank AG and its affiliated companies did not held any own shares pursuant to Section 71 (1) No. 7 AktG. Its holdings pursuant to Section 71 (1) No. 8 AktG amounted to 1,346,166 shares, or 0.06 % of its share capital. On December 31, 2020, 7,416,731 (end of 2019: 9,226,803) Deutsche Bank shares, i.e. 0.36 % (end of 2019: 0.45 %) of our share capital, were pledged to the bank and its affiliated companies as security for loans.

Changes in subscribed, authorized and conditional capital

The bank's subscribed capital is divided into 2,066,773,131 registered no-par-value shares and each share has a nominal value of €2.56. Excluding holdings of the bank's own shares, the number of shares outstanding at December 31, 2020 was 2,065,426,965 (end of 2019: 2,066,101,774). The average number of shares outstanding in the reporting period was 2,061,032,160.

in €	Subscribed capital	Authorized capital	Conditional capital (yet to be utilized)
Balance as of Dec 31, 2019	5,290,939,215.36	2,560,000,000.00	563,200,000.00
Balance as of Dec 31, 2020	5,290,939,215.36	2,560,000,000.00	563,200,000.00

¹ Includes nominal value of treasury shares.

Details with regard to the authorized and the yet to be utilized conditional capital are presented in the combined management report concerning the Information pursuant to Section 289 (4) of the German Commercial Code.

Taking into account the withdrawal from capital reserves to offset losses according to sect. 150 (4) No. 1 AktG (German Stock Corporation Act) to the amount of €1.8 billion, the remaining loss amounted to €0 million as of December 31, 2020.

Off-balance sheet transactions

The bank discloses contingent liabilities and irrevocable loan commitments as off-balance sheet transactions as far as no provisions have been established for them. The decision, whether the disclosure of the contingent liabilities and irrevocable loan commitments will be shown off-balance sheet or recognized as provisions is taken upon the result of the evaluation of the credit risk. Contingent liabilities and irrevocable loan commitments are also reduced by the amount of cash collateral received, which is recorded as liability on the balance sheet.

The risk of losses from claims under contingent liabilities is mitigated by the possibility to recourse towards the respective customer and hence is based predominantly on the credit risk of the customer.

The bank evaluates the risk of losses from claims under contingent liabilities and irrevocable credit commitments before irrevocably entering into an obligation within a credit risk assessment of the customer or using an assessment of the customer's expected compliance with the underlying obligation. Additionally the bank regularly assesses during the lifetime of the commitment whether losses are expected from claims under contingent liabilities and irrevocable loan commitments. In certain circumstances the bank requests the provision of collateral to reduce the risk of losses from claims. Loss amounts assessed within such evaluations are recorded on the balance sheet as provisions.

Irrevocable loan commitments

Irrevocable loan commitments amounted to €122.2 billion as of December 31, 2020 and included commitments of €120.9 billion for loans and discounts in favor of non-banks.

Deutsche Bank AG enters into irrevocable loan commitments to meet the financing needs of its customers. Irrevocable loan commitments represent the undrawn portion of Deutsche Bank's obligation to grant loans which cannot be withdrawn by Deutsche Bank. These commitments are shown with the contractual amount after consideration of cash collateral received and provisions as recorded on the balance sheet. The amounts stated above do not represent expected future cash flows as many of these contracts will expire without being drawn. Even though the irrevocable loan commitments are not recognized on the balance sheet, Deutsche Bank AG considers them in monitoring the credit exposure. If the credit risk monitoring provides sufficient perception about a loss from an expected drawing, a provision is established.

Deutsche Bank AG is engaged in various business activities with certain entities, referred to as special purpose entities ("SPEs"), which are designed to achieve a specific business purpose. The principal uses of SPEs are to provide clients with access to specific portfolios of assets and risks and to provide market liquidity for clients through securitizing financial assets. Typically, Deutsche Bank AG will benefit by receiving service fees and commissions for the creation of the SPEs, or because it acts as investment manager, custodian or in some other function. SPEs may be established as corporations, trusts or partnerships. While our involvement with these entities can take many different forms, it consists primarily of liquidity facilities, which are disclosed off balance sheet as irrevocable loan commitments within "other obligations" below the line of the balance sheet. Deutsche Bank AG provides financial support to SPEs in connection with commercial paper conduit programs, asset securitizations, mutual funds and real estate leasing funds. Such vehicles are critical to the functioning of several significant investor markets, including the mortgage-backed and other asset-backed securities markets, since they offer investors access to specific cash flows and risks created through the securitization process. As of December 31, 2020, Deutsche Bank AG's exposure has not had a material impact on its debt covenants, capital ratios, credit ratings or dividends.

Contingent liabilities

In the normal course of business Deutsche Bank AG enters regularly into guarantees, letters of credit and credit liabilities on behalf of its customers. Under these contracts Deutsche Bank AG is required to make payments to the beneficiary based on third party's failure to meet its obligations or to perform under an obligation agreement. For such contingencies it is not known to the bank in detail, if, when and to which extent claims will be made. If the credit risk monitoring provides sufficient perception about a loss from an expected drawing, a provision is recognized.

The following table shows the total potential payments under guarantees, letters of credit and credit liabilities after deduction of cash collateral and provisions recorded on the balance sheet. It shows the maximum amount of the potential utilization of Deutsche Bank AG in case all obligations entered into must be fulfilled and at the same time all recourse claims to the customers are not satisfied. The table therefore does not show the expected future cash flows from these contracts as many of these agreements will expire without being drawn or drawings will counterbalanced by recourse to the customer.

in € m.	Dec 31, 2020	Jan 1, 2020 (pro-forma)	Dec 31, 2019
Guarantees	34,497	35,701	35,365
Letters of credit	3,579	3,095	3,095
Credit liabilities	8,120	9,574	7,272

Sundry obligations

Purchase obligations are legally enforceable and binding agreements to purchase goods or services at pre-defined terms such as minimum quantities or prices. When Deutsche Bank AG enters into such agreements there is the potential risk that terms and conditions of the contract are less favorable than terms and conditions at the time the goods or services are delivered or that related costs are higher than the economic benefit received. In case of an anticipated loss, Deutsche Bank AG may set aside a provision for onerous contracts.

Purchase obligations for goods and services amount to €3.6 billion as of December 31, 2020, which include future payments for, among others, services such as information technology and facility management.

Leases are contracts in which the owner of an asset (lessor) grants the right to use this asset to another party (lessee) for a specific period of time in return for regular payments. A leasing contract is classified as Operating Lease if the agreement includes a limited or unlimited right of termination for the lessee. All main risks and benefits linked with the ownership of the asset remain with the lessor, the lessor remains economic owner. Operating leases provide an alternative to ownership as they enable the lessee to benefit from not having its resources invested in the asset. Deutsche Bank AG's existing obligations arising from operating leases involve rental and leasing agreements for buildings, office furniture and equipment. The majority of these are leasing agreements for buildings, where Deutsche Bank AG is the lessee. As of December 31, 2020 payment obligations under rental agreements and leases amounted to €4.2 billion (€47 million were related to subsidiaries) and had residual maturities of up to 26 years.

As of December 31, 2020 unamortized deferred variable compensation costs amount to €0.1 billion.

Liabilities for possible calls on not fully paid-up shares in public and private limited companies and other shares amounted to €17 million at the end of 2020, of which €15 million were related to a subsidiary.

Liabilities for possible calls on other shares totaled €0.1 million at December 31, 2020.

Pursuant to Section 5 (10) of the Statute of the Deposit Protection Fund Deutsche Bank AG has undertaken to indemnify Bundesverband deutscher Banken e.V., Berlin, for any losses incurred through measures taken in favor of banks majority-held or controlled by Deutsche Bank AG.

Irrevocable payment commitments for to bank levy related to the Single Resolution Fund (SFR) and German deposit protection amounted to €650 million.

Obligations arising from transactions on futures and options exchanges and towards clearing houses for which securities were pledged as collateral amounted to €11.7 billion as of December 31, 2020.

Additional other contingent liabilities are totaling €73 million.

Notes to the income statement

Income by geographical market

The total amount of interest income, of current income from equity shares and other variable-yield securities, participating interests and investments in affiliated companies, of commission income, of net trading result and of other operating income is originated across various regions as shown by the following breakdown pursuant to Section 34 (2) RechKredV.

in € m.	2020	2019 (pro-forma)	2019
Germany	14,517	13,079	5,241
Europe excl. Germany	6,595	12,345	12,261
Americas	2,981	6,064	6,064
Africa/Asia/Australia	2,897	4,056	4,056
Total	26,990	35,544	27,622

The increase of income in Germany is mainly attributable to a higher trading result. Decreased revenues in Europe (without Germany), Americas and Africa/Asia/Australia are primarily driven by lower interest income.

Interest income and interest expenses

Interest income from lending and money market business included €404 million of negative interest, i.e. interest expenses on receivables which were mainly related to receivables from banks and to trading assets. Interest expenses included €561 million of negative interest, i.e. interest income on liabilities which was mainly related to liabilities to banks.

Administrative and agency services provided for third parties

The following administrative and agency services were provided for third parties: custody services, referral of mortgages, insurance policies and home savings contracts, administration of assets held in trust, and asset management.

Other operating income and expenses

Other operating income of €2.0 billion includes the result from non-trading derivatives of €922 million.

Other operating expenses of €1.2 billion mainly include the result from non-trading derivatives of €435 million as well as expenses from currency translation of assets and liabilities, which amounted to €300 million.

Extraordinary result

Extraordinary income of € 1.3 billion relates mainly to the gain from the merger with DB PFK AG. (2019: income of € 52.4 million related to the reversal of restructuring provisions). Extraordinary expenses of € 472.9 million reflect restructuring activities (2019: expenses of € 498.7 million).

Extraordinary income and expenses net to an extraordinary result of € 779.1 million (2019: negative € 446.4 million).

Information regarding amount blocked according to sections 253 (6) and 268 (8) HGB

The following table presents the amounts pursuant to sections 268 (8) HGB and 253 (6) HGB that should be considered for profit distribution. According to the second rule, the difference in the valuation of pension obligations based on average rates, either employing a ten year or a seven year period, has to be calculated. Total distributable reserves plus the distributable profit are below the amounts blocked as of 31 December 2020. Accordingly, a dividend payment for the year 2020 is not possible. The individual positions include deferred tax liabilities, if applicable; therefore the amounts shown in the table may deviate from the corresponding balance sheet positions.

in € m.	Dec 31, 2020	Jan 1, 2020 (pro-forma)	Dec 31, 2019
Deferred tax assets	3,343	2,988	2,988
Self-developed intangible assets	2,275	2,355	2,355
Valuation difference related to discounting of provisions for pension obligations	549	674	340
Unrealized gains of plan assets	1,252	880	287
Total undistributable amount	7,419	6,896	5,969

Shareholdings

- 29 Companies, where the holding exceeds 20 %
- 39 Holdings in large corporations, where the holding exceeds 5 % of voting rights

The following pages show the Shareholdings of Deutsche Bank AG pursuant to Section 285 Number 11 HGB including information pursuant to Section 285 Number 11a HGB. Pursuant to Section 286 (3) Sentence 1 Number 1 HGB, Deutsche Bank AG does not disclose own funds and annual result of individual holdings to the extent that those disclosures are insignificant for the presentation of assets and liabilities, financial position, and results of operations of Deutsche Bank AG.

Footnotes:

- 1 Profit and loss transfer agreement, annual result is not disclosed.
- 2 Own funds and annual result of business year 2019; local GAAP figures for business year 2020 are not yet available.
- 3 Own funds and annual result of the subgroup. The following companies starting with a dash are part of the subgroup; their own funds and annual result are incorporated in the subgroup data.
- 4 Status as shareholder with unlimited liability pursuant to Section 285 Number 11a HGB.
- 5 General Partnership.

Management Board and Supervisory Board

The total remuneration paid to the Management Board is detailed in the Compensation Report as part of the Combined Management Report. Former members of the Management Board of Deutsche Bank AG or their surviving dependents received € 31,929,318 and € 18,093,988 for the years ended December 31, 2020 and 2019, respectively.

Provisions for pension obligations to former members of the Management Board and their surviving dependents amounted to € 167,503,588 and € 177,074,894 at December 31, 2020 and 2019, respectively.

The compensation principles for Supervisory Board members are set forth in our Articles of Association. The members of the Supervisory Board receive fixed annual compensation. The annual base compensation amounts to € 100,000 for each Supervisory Board member. The Supervisory Board Chairman receives twice that amount and the Deputy Chairperson one and a half times that amount. Members and chairs of the committees of the Supervisory Board are paid additional fixed annual compensation. 75 % of the compensation determined is disbursed to each Supervisory Board member after submitting invoices within the first three month of the following year. The other 25 % is converted by the company at the same time into company shares (notional shares) according to the provisions of the Articles of Association. The share value of this number of shares is paid to the respective Supervisory Board member in February of the year following his departure from the Supervisory Board or the expiration of his term of office according to the provisions of the Articles of Association, provided that the member does not leave the Supervisory Board due to important cause which would have justified dismissal. In case of a change in Supervisory Board membership during the year, compensation for the financial year will be paid on a pro rata basis, rounded up/down to full months. For the year of departure, the entire compensation is paid in cash; a forfeiture regulation applies to 25 % of the compensation for that financial year. The members of the Supervisory Board received for the financial year 2020 a total remuneration of € 6,077,083 (2019: € 6,112,499), of which € 4,632,813 will be paid out in 1st quarter 2021 (1st quarter 2020: € 4,692,708) according to the provisions of the Articles of Association.

Loans and advances granted and contingent liabilities assumed for members of the Management Board amounted to €6,516,181 and €8,106,465 and for members of the Supervisory Board of Deutsche Bank AG to €1,546,839 and €1,620,722 for the years ended December 31, 2020 and 2019, respectively. Members of the Supervisory Board repaid €268,802 loans in 2020.

The members of the Management Board and the Supervisory Board are listed on pages 49 to 50.

Employees

The average number of full-time equivalent staff employed during the reporting year was 32,132 (2019: 26,271), 13,384 of whom were women (2019: 10,010). Part-time employees are included proportionately in these figures based on their working hours. An average of 14,029 (2019: 14,933) staff members worked at branches outside Germany. The average figures have included the employees of the former DB Privat- und Firmenkundenbank AG since May 2020.

Corporate governance

The Management Board and Supervisory Board of Deutsche Bank AG in October 2020 issued the declaration of conformity with the German Corporate Governance Code pursuant to section 161 of the Stock Corporation Act (AktG) and made it permanently accessible on its [website](#).

The Managing Directors of the General Partner and the Supervisory Board of DWS Group GmbH & Co. KGaA also issued their declaration of conformity with the German Corporate Governance Code pursuant to section 161 of the Stock Corporation Act (Akt) and made it permanently accessible on its [website](#).

Additional services rendered by the auditor

Deutsche Bank AG and its subsidiaries have received certain audit-related and tax-related services by Deutsche Bank AG's auditor of the annual financial statements, Ernst & Young GmbH Wirtschaftsprüfungsgesellschaft ("EY").

The Audit fees include fees for professional services for the audit of our annual financial statements and consolidated financial statements and do not include the 2020 audit fees for DWS and its subsidiaries that are not audited by EY. The Audit-related fees include fees for other assurance services required by law or regulations, in particular for financial service specific attestation, for quarterly reviews, as well as fees for voluntary assurance services, like voluntary audits for internal management purposes and the issuance of comfort letters. Our Tax-related fees include fees for services relating to the preparation and review of tax returns and related compliance assistance and advice, tax consultation and advice relating to Group tax planning strategies and initiatives and assistance with assessing compliance with tax regulations.

For information on the fees paid to Deutsche Bank AG's auditor please refer to the Group's Annual Report.

Events after the reporting period

After the reporting date no material events occurred which had a significant impact on our results of operations, financial position and net assets.

Independent Auditor's Report

To Deutsche Bank Aktiengesellschaft, Frankfurt am Main

Report on the Audit of the Annual Financial Statements and of the Management Report

Opinions

We have audited the annual financial statements of Deutsche Bank Aktiengesellschaft, Frankfurt am Main, which comprise the balance sheet as at 31 December 2020, and the income statement for the fiscal year from 1 January 2020 to 31 December 2020, and notes to the financial statements, including the recognition and measurement policies presented therein. In addition, we have audited the management report of Deutsche Bank Aktiengesellschaft, which is combined with the group management report, for the fiscal year from 1 January 2020 to 31 December 2020. In accordance with the German legal requirements, we have not audited the content of the combined Corporate Governance Statement pursuant to Sec. 289f HGB which is published on the website stated in the management report and is part of the management report.

In our opinion, on the basis of the knowledge obtained in the audit,

- the accompanying annual financial statements comply, in all material respects, with the requirements of German commercial law applicable to institutions and give a true and fair view of the assets, liabilities and financial position of the Institution as at 31 December 2020 and of its financial performance for the fiscal year from 1 January 2020 to 31 December 2020 in compliance with German legally required accounting principles, and
- the accompanying management report as a whole provides an appropriate view of the Institution's position. In all material respects, this management report is consistent with the annual financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development. Our opinion on the management report does not cover the content of the combined Corporate Governance Statement referred to above.

Pursuant to Sec. 322 (3) Sentence 1 HGB, we declare that our audit has not led to any reservations relating to the legal compliance of the annual financial statements and of the management report.

Basis for the Opinions

We conducted our audit of the annual financial statements and of the management report in accordance with Sec. 317 HGB and the EU Audit Regulation (No 537/2014, referred to subsequently as "EU Audit Regulation") and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). Our responsibilities under those requirements, principles and standards are further described in the "Auditor's responsibilities for the audit of the annual financial statements and of the management report" section of our auditor's report. We are independent of the Institution in accordance with the requirements of European law and German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. In addition, in accordance with Art. 10 (2) f) of the EU Audit Regulation, we declare that we have not provided non-audit services prohibited under Art. 5 (1) of the EU Audit Regulation. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions on the annual financial statements and on the management report.

Key Audit Matters in the Audit of the Annual Financial Statements

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the annual financial statements for the fiscal year from 1 January 2020 to 31 December 2020. These matters were addressed in the context of our audit of the annual financial statements as a whole, and in forming our opinion thereon; we do not provide a separate opinion on these matters.

Below, we describe what we consider to be the key audit matters:

1. Valuation of financial instruments with unobservable inputs

Reasons why the matter was determined to be a key audit matter

As of 31 December 2020, the Bank reports trading assets of EUR 241,390 million and trading liabilities of EUR 203,986 million. Both positions also contain financial instruments whose valuation is based on unobservable inputs.

Market prices are not observable for the valuation of these financial instruments. Therefore, fair values have to be determined using recognized valuation techniques. These valuation techniques may be based on complex models and involve assumptions and estimates relating to unobservable inputs which are such to judgment, such as discounted cash flows, volatilities, correlations and credit and liquidity spreads.

As the valuation of financial instruments with unobservable inputs is based on a high degree on assumptions and judgments due to the complex nature of the valuation techniques and models used this is a key audit matter.

Auditor's response

We obtained an understanding of the management's processes to determine the fair value of financial instruments and determination of significant unobservable inputs therein, evaluated the design of controls and tested their operating effectiveness.

This was particularly the case for controls relating to independent price verification, independent validation of valuation models, including the assessment of model limitations, monitoring of potentially inappropriate valuation model usage and calculation of fair value adjustments and the associated controls over relevant IT systems.

We evaluated the valuation techniques, models and methodologies, and analyzed the inputs used in those models.

We performed recalculations for a sample of valuation adjustments using independent data and methodology. We performed an independent revaluation of a sample of financial instruments at fair value using independent models and inputs. We also independently assessed the reasonableness of a sample proxy inputs used.

We involved internal specialists who have particular expertise in the area of financial instruments valuation.

Our procedures did not lead to any reservations relating to the valuation of financial instruments with unobservable inputs.

Reference to related disclosures

Information on the valuation techniques, models and methodologies used in the measurement of fair value is provided in the sections "General Information, Basis of Presentation" and "Notes to the Balance Sheet, Trading Assets and Liabilities" in the notes to the annual financial statements.

2. Inclusion of forward-looking information in the model-based calculation of expected credit losses

Reasons why the matter was determined to be a key audit matter

As of 31 December 2020, the Bank recognized an allowance for credit losses of EUR 2,888 million.

The estimated probabilities of default used in the model-based calculation of expected credit losses on non-defaulted customer loans are based on historical information, combined with current economic developments and forward-looking macroeconomic forecasts (e.g., gross domestic product and unemployment rates). The resulting baseline scenario is transformed into a multi-scenario analysis using statistical methods. The scenarios specify deviations from the baseline scenario and act as a basis for determining multi-year curves describing the probabilities of default of various rating and counterparty categories. These probabilities of default are used to calculate expected credit losses and identify a significant increase in the credit risk of customer loans.

In light of the economic uncertainty arising as a result of the COVID-19 pandemic in the fiscal year, the resulting uncertainty in the estimation of forward-looking information and the impact of government support schemes on the early detection of risks, the Bank made adjustments to the expected credit losses calculated using the conventional credit risk models and forecasting methods.

In view of the significant holdings of non-defaulted loans and the increased uncertainty and use of judgment, including the COVID-19 pandemic, we consider the inclusion of forward-looking information in the model-based calculation of expected credit losses and the adjustment thereof to be a key audit matter.

Auditor's response

As part of our audit procedures, we obtained an understanding of the implemented processes, evaluated the design of the controls over the selection, determination and validation of forward-looking information and tested their effectiveness.

We evaluated the review of the forecasting methods on the basis of the Bank's validation reports. Furthermore, we verified the methods used to include the selected variables in the baseline scenario and the performance of the multi-scenario analysis.

We analyzed the macroeconomic forecasts used by the Bank as of the reporting date by comparing them with external sources.

We also verified the methodology applied by the Bank in making adjustments. In so doing, we assessed the results of the Bank's sensitivity analyses by drawing on insights from our own benchmark analyses. We also tested that the adjustments were properly considered in the calculation of expected credit losses according to the bank's methodology.

To audit the inclusion of forward-looking information in the model-based calculation of expected credit losses, we involved internal specialists who have particular expertise in the area of credit risk modeling.

Our procedures did not lead to any reservations relating to the inclusion of forward-looking information in the model-based calculation of expected credit losses.

Reference to related disclosures

Information on the inclusion of forward-looking information in the model-based calculation of expected credit losses is provided in section "General Information, Basis of Presentation" in the notes to the annual financial statements.

3. Valuation of investments in affiliated companies

Reasons why the matter was determined to be a key audit matter

As of 31 December 2020, the Bank reports investments in affiliated companies of EUR 27,948 million.

Investments in affiliated companies are carried at acquisition cost or, in the case of a permanent impairment, at the lower fair value. The fair value is determined on the basis of a multi-year plan for the respective affiliated company. In this context, assumptions must be made regarding, in particular, the derivation of capital requirements, annual profits and losses, cash flows, costs of capital and discount rates. Moreover, estimates are required as to whether an impairment is permanent.

As the measurement of investments in affiliated companies involves a high degree of judgment, and this item is material in amount, this is a key audit matter.

Auditor's response

As part of our audit procedures, we obtained an understanding of the implemented processes, evaluated the design of the controls over the valuation of investments in affiliated companies and tested their effectiveness.

We evaluated the significant assumptions and value drivers in the planning assumptions. In doing so, we assessed the consistency of the significant assumptions used in the multi-year plan and also compared them with externally available market expectations.

In analyzing the expected future cash flows of the affiliated companies, we compared the business plan with the prior fiscal year's plan and with the actual results achieved and evaluated any deviations. Furthermore, we examined the extent to which the assumptions on the economic development in the detailed planning period and for the perpetual annuity are within a range of externally available forecasts. We examined the valuation parameters used for the estimate of the fair value, such as estimated growth rates, cost of capital rates and tax rates, in comparison to externally available parameters.

We also checked the arithmetical accuracy of the valuation model used.

To audit the valuation of investments in affiliated companies, we involved internal specialists who have particular expertise in the area of business valuation.

Our procedures did not lead to any reservations relating to the valuation of investments in affiliated companies.

Reference to related disclosures

Information on the valuation of investments in affiliated companies is provided in the notes to the annual financial statements in the sections "General Information, Basis of Presentation" and in the "Notes to the Balance Sheet, Information on Affiliated, Associated and Related Companies".

4. Recognition and measurement of deferred taxes

Reasons why the matter was determined to be a key audit matter

As of 31 December 2020, the Bank reports deferred taxes of EUR 2,638 million.

The estimation of future ability to utilize such assets depends on the potential for future taxable profit. This is subject to estimation uncertainty and is dependent on the expected development of key assumptions. These include, but are not limited to, assumptions on the forecasted operating results based upon approved business plans, including a review of the eligible carry-forward periods, tax planning opportunities and other relevant considerations.

In light of the material significance and the use of judgment in numerous estimates of future taxable profit and the ability to use tax losses and previously unclaimed tax credits, the assessment of the recognition and measurement of deferred tax assets is a key audit matter.

Auditor's response

We obtained an understanding of the process for the recognition and measurement of deferred tax assets to determine whether deductible temporary differences and net operating loss carryforwards are identified and measured in accordance with the provisions of tax law and rules for accounting for deferred taxes under German commercial law, evaluated the design and tested the operational effectiveness of the controls.

This included, but was not limited to, the assumptions used to develop and allocate elements of the approved business plan as a basis for estimating the future taxable income of the relevant branches.

Furthermore, we verified the Bank's methodology for the recognition of deferred tax assets by analyzing the assumptions made in estimating future taxable profits. We verified the completeness and accuracy of the data used to estimate future taxable income and compared the significant assumptions underlying the forecast of future taxable income with historical and prospective data available externally. We also assessed the parameters applied to the approved business plans and performed sensitivity analyses for the underlying assumptions. We additionally compared the accuracy of the historical forecasts with the actual results.

To audit the above assumptions involved in the recoverability of the deferred taxes, we involved our tax professionals and internal specialists who have knowledge in the area of business valuation.

Our procedures did not lead to any reservations relating to the recognition and measurement of the deferred taxes.

Reference to related disclosures

Information on the recognition and measurement of deferred taxes is provided in the sections "General Information, Basis of Presentation" and "Notes to the Balance Sheet, Deferred Taxes" in the notes to the annual financial statements.

5. IT Access and Change Management in the financial reporting

Reasons why the matter was determined to be a key audit matter

The accuracy of the bank's financial reporting is highly dependent on the reliability and the continuity of the used information technology due to the significant number of transactions that are processed daily.

The bank continued to make efforts during the year to enhance the centralization of their IT systems and processes, to increase the reliability and continuity of the IT processing and access and change management as well as to reduce the IT complexity.

Given the high dependency on reliable and continuing data processing and given the pervasive nature of IT controls on the internal control system, we consider IT Access and Change Management in the financial reporting as a key audit matter.

Auditor's response

We assessed the IT control environment including the IT general controls as well as the IT application controls relevant to the financial reporting. Our procedures also covered the changes during the year on the current IT control environment from ongoing centralization activities.

Moreover, we tested the operating effectiveness of IT general controls related to user access management and change management across applications, databases and operating systems. Further on we tested IT application controls over automated data processing, data feeds and interfaces. Our audit procedures related to IT access management included, but were not limited to, user access provisioning and withdrawal, privileged user access, periodic access right recertifications, system security settings and user authentication controls. Our audit procedures related to IT change management included, but were not limited to, evaluating if changes were tested and approved prior to implementation and changes in the user management is restricted to authorized users.

Furthermore, we tested if program developers had approval rights for changes in productive systems and whether they were able to carry out any modifications due to their access rights in the productive versions of applications, databases, and operating systems respectively to assess if these responsibilities were functionally segregated.

To audit the IT Access and Change Management in the financial reporting process, we involved internal professionals who have particular expertise in the area of IT audits.

Our audit procedures did not lead to any reservations relating to the IT access and change management in the financial reporting.

Reference to related disclosures

For a general description of internal controls over the financial reporting, we refer to the combined management report in section "Internal Control over Financial Reporting".

Other Information

The executive directors are responsible for the other information. The other information comprises

- the combined Corporate Governance Statement pursuant to Sec. 289f HGB published on the website referred to in the management report and the following other parts to be included in the annual report, of which we obtained a version prior to issuing this auditor's report:
 - the Non-financial Statement,
 - the Responsibility Statement pursuant to Sec. 264 (2) Sentence 3 HGB in conjunction with Sec. 289 (1) Sentence 5 HGB,but not the annual financial statements, not the management report disclosures whose content is audited and not our auditor's report thereon.

Our opinions on the annual financial statements and on the management report do not cover the other information, and consequently we do not express an opinion or any other form of assurance conclusion thereon.

In connection with our audit, our responsibility is to read the other information and, in so doing, to consider whether the other information

- is materially inconsistent with the annual financial statements, with the management report or our knowledge obtained in the audit, or
- otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the executive directors and the Supervisory Board for the annual financial statements and the management report

The executive directors are responsible for the preparation of the annual financial statements that comply, in all material respects, with the requirements of German commercial law applicable to institutions, and that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Institution in compliance with German legally required accounting principles. In addition, the executive directors are responsible for such internal control as they, in accordance with German legally required accounting principles, have determined necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the annual financial statements, the executive directors are responsible for assessing the Institution's ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matters related to going concern. In addition, they are responsible for financial reporting based on the going concern basis of accounting, provided no actual or legal circumstances conflict therewith.

Furthermore, the executive directors are responsible for the preparation of the management report that, as a whole, provides an appropriate view of the Institution's position and is, in all material respects, consistent with the annual financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development. In addition, the executive directors are responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the management report.

The Supervisory Board is responsible for overseeing the Institution's financial reporting process for the preparation of the annual financial statements and of the management report.

Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the management report as a whole provides an appropriate view of the Institution's position and, in all material respects, is consistent with the annual financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as to issue an auditor's report that includes our opinions on the annual financial statements and on the management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Sec. 317 HGB and the EU Audit Regulation and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements and this management report.

We exercise professional judgment and maintain professional skepticism throughout the engagement. We also:

- Identify and assess the risks of material misstatement of the annual financial statements and of the management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit of the annual financial statements and of arrangements and measures (systems) relevant to the audit of the management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of these systems of the Institution.
- Evaluate the appropriateness of accounting policies used by the executive directors and the reasonableness of estimates made by the executive directors and related disclosures.
- Conclude on the appropriateness of the executive directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Institution's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the annual financial statements and in the management report or, if such disclosures are inadequate, to modify our respective opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Institution to cease to be able to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements present the underlying transactions and events in a manner that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Institution in compliance with German legally required accounting principles.
- Evaluate the consistency of the management report with the annual financial statements, its conformity with [German] law, and the view of the Institution's position it provides.
- Perform audit procedures on the forward-looking information presented by the executive directors in the management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by the executive directors as a basis for the forward-looking information, and evaluate the proper derivation of the forward-looking information from these assumptions. We do not express a separate opinion on the forward-looking information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the forward-looking information.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with the relevant independence requirements, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and where applicable, the related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the annual financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter.

Other Legal and Regulatory Requirements

Report on the assurance in accordance with Sec. 317 (3b) HGB on the electronic reproduction of the annual financial statements and the management report prepared for publication purposes

Opinion

We have performed assurance work in accordance with Sec. 317 (3b) HGB to obtain reasonable assurance about whether the reproduction of the annual financial statements and the management report (hereinafter the "ESEF documents") contained in the attached electronic file [Deutsche_Bank_AG_JA+LB_ESEF-2020-12-31.zip] and prepared for publication purposes complies in all material respects with the requirements of Sec. 328 (1) HGB for the electronic reporting format ("ESEF format"). In accordance with German legal requirements, this assurance only extends to the conversion of the information contained in the annual financial statements and the management report into the ESEF format and therefore relates neither to the information contained in this reproduction nor to any other information contained in the abovementioned electronic file.

In our opinion, the reproduction of the annual financial statements and the management report contained in the abovementioned attached electronic file and prepared for publication purposes complies in all material respects with the requirements of Sec. 328 (1) HGB for the electronic reporting format. We do not express any opinion on the information contained in this reproduction nor on any other information contained in the abovementioned file beyond this reasonable assurance opinion and our audit opinion on the accompanying annual financial statements and the accompanying management report for the fiscal year from 1 January 2020 to 31 December 2020 contained in the "Report on the audit of the annual financial statements and of the management report" above.

Basis for the opinion

We conducted our assurance work on the reproduction of the annual financial statements and the management report contained in the abovementioned attached electronic file in accordance with Sec. 317 (3b) HGB and Exposure Draft of IDW Assurance Standard: Assurance in Accordance with Sec. 317 (3b) HGB on the Electronic Reproduction of Financial Statements and Management Reports Prepared for Publication Purposes (ED IDW AsS 410). Our responsibilities under that standard are further described in the "Auditor's responsibilities for the assurance work on the ESEF documents" section. Our auditor practice applied the requirements set forth in IDW Quality Control Standard: "Anforderungen an die Qualitätssicherung in der Wirtschaftsprüferpraxis" [Requirements for Quality Control in the Practice of Public Auditors] (IDW QS 1) with regard to its quality control system.

Responsibilities of the executive directors and the Supervisory Board for the ESEF documents

The executive directors of the Institution are responsible for the preparation of the ESEF documents including the electronic reproduction of the annual financial statements and the management report in accordance with Sec. 328 (1) Sentence 4 No. 1 HGB.

In addition, the executive directors of the Institution are responsible for such internal control as they have considered necessary to enable the preparation of ESEF documents that are free from material non-compliance with the requirements of Sec. 328 Abs. 1 HGB for the electronic reporting format, whether due to fraud or error.

The executive directors of the Institution are also responsible for the submission of the ESEF documents together with the auditor's report and the attached audited annual financial statements and the audited management report as well as other documents to be published to the operator of the *Bundesanzeiger* [German Federal Gazette].

The Supervisory Board is responsible for overseeing the preparation of the ESEF documents as part of the financial reporting process.

Auditor's responsibilities for the assurance work on the ESEF documents

Our objective is to obtain reasonable assurance about whether the ESEF documents are free from material non-compliance with the requirements of Sec. 328 (1) HGB, whether due to fraud or error. We exercise professional judgment and maintain professional skepticism throughout the engagement. We also:

- Identify and assess the risks of material non-compliance with the requirements of Sec. 328 (1) HGB, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain assurance evidence that is sufficient and appropriate to provide a basis for our assurance opinion.
- Obtain an understanding of internal control relevant to the assurance on the ESEF documents in order to design assurance procedures that are appropriate in the circumstances, but not for the purpose of expressing an assurance opinion on the effectiveness of these controls.
- Evaluate the technical validity of the ESEF documents, i.e., whether the electronic file containing the ESEF documents meets the requirements of Delegated Regulation (EU) 2019/815, in the version valid as of the reporting date, on the technical specification for this electronic file.
- Evaluate whether the ESEF documents enable an XHTML reproduction with content equivalent to the audited annual financial statements and to the audited management report.

Further information pursuant to Art. 10 of the EU Audit Regulation

We were elected as auditor by the Annual General Meeting on 20 May 2020. We were engaged by the Supervisory Board on 5 June 2020. We have been the auditor of Deutsche Bank Aktiengesellschaft since fiscal year 2020.

We declare that the opinions expressed in this auditor's report are consistent with the additional report to the Audit Committee pursuant to Art. 11 of the EU Audit Regulation (long-form audit report).

German Public Auditor responsible for the engagement
